Subject: Subsea / VOC Chart

Al, as requested....

I have tried to simply and amply the dispersant / VOC chart....

The 2-d chart attached depicts subsea dispersant use, charted against VOC
monitoring from (June 1 to present) at the 4 primary stationary points around the
well (the two relief well platforms, the Enterprise vessel, and the Q4000 platform)...

I have also attached a graphic depiction of the area to better understand where the
monitoring points are located...

Faithfully yours
Steve
